Choosing the Right Course for You

Embarking on a new learning journey at university is a significant decision, and the first crucial step is selecting the programme that aligns best with your aspirations and ambitions. Your programme will not only deepen your knowledge but also shape your career.

Start by reflecting on your passions, interests, and strengths. What drives you? What topics or fields ignite your curiosity? The course you choose should be a meaningful extension of your academic journey and a path to fulfilling your career ambitions.

Consider the practical aspects as well. What are the employment prospects in your chosen field? Does the programme offer opportunities for internships, research, or practical experience? How does the curriculum align with industry trends and future demands?

Don't forget about the learning environment. Are you looking for a traditional classroom experience, an online programme, or a combination of both? Think about the location, class size, and the resources available to support your studies.

Financial considerations are also essential. Investigate scholarship options, tuition costs, and the potential return on investment for your chosen programme. Balancing your financial commitments with your educational goals is a crucial part of the decision-making process.

Lastly, seek advice and guidance from mentors, lecturers, and current students. Their insights can provide valuable perspectives and help you make an informed decision.

Remember, the course you choose is not just a stepping stone; it's a transformative experience that can shape your future. Choose wisely, and let your passion, dedication, and ambition guide you toward the programme that will unlock your full potential and lead you toward a brighter tomorrow.

Grants

Government funded grants and financial supports are available to students to help alleviate the cost of tuition, materials and other study-related expenses. The supports aim to foster academic success, allowing students to focus on their studies by reducing financial barriers.

SUSI GRANT SCHEME FOR POSTGRADUATE STUDENTS

The Student Grant Scheme is the main financial support scheme for students studying in Ireland and abroad. It is also known as the SUSI grant because the Student Universal Support Ireland (SUSI) is the awarding authority for the Student Grant Scheme. SUSI offers funding to eligible students in approved full-time courses at PLC, undergraduate and postgraduate levels in Ireland and in some cases, to students studying in the UK or EU.

Those applying for a postgraduate course in ATU may be eligible for financial support. Depending on the level of a student's reckonable income, a postgraduate fee contribution of €4,000 or a postgraduate fee grant, up to a maximum of €6,270, towards the cost of fees plus a maintenance grant is available to postgraduate students pursuing an approved course.

- Postgraduate students who are eligible for the postgraduate fee contribution of €4,000 are not eligible to receive the maintenance grant.
- Maintenance grants are paid at adjacent and non-adjacent rates. The adjacent rate is paid when a student's college is less than 30km from their normal residence. The non-adjacent rate is paid when a student's college is 30km or more from their normal residence.

SUSI FUNDED PART-TIME UNDERGRADUATE STUDENTS

The Irish Government has approved a part-time fee scheme for SUSI funding. For programmes to be eligible for this scheme they must lead to an undergraduate major award, such as a Higher Certificate, Ordinary Degree, or Honours Degree. You will need to complete between 30 and 50 credits each academic year, with any remaining credits arranged in your final year. Classes can be attended in-person or through a hybrid format that includes some in-person sessions beyond just registration, enrolment, or exams.

Below is the list of part-time undergraduate courses approved for SUSI funding in 2024/25 academic year. Register your interest at atu.ie/flexible to find out about 2025/26 funded courses.

Course Name	Award	Delivery Mode	Level
Applied Approaches to Childhood Autism	Bachelor of Science	Blended	7
Quality for Industry (Add-On)	Bachelor of Science (Hons)	Blended	8
Quality for Industry	Bachelor of Science	Blended	7
Inclusive Practice for Special Needs Assistance	Bachelor of Science	Blended	7

For details on the Student Grant Scheme and other important information see the Student Universal Support Ireland (SUSI) website, www.susi.ie

Grants

TAX RELIEF

As ATU is listed by the Irish Revenue as an 'Approved Institution', students are eligible to claim tax relief at the standard rate for tuition fees. To determine your own eligibility and if the course you have applied for qualifies for a tax refund, please visit revenue.ie and see the "Personal tax credits, reliefs and exemptions" section for more information.

BACK TO EDUCATION ALLOWANCE (BTEA)

If you are unemployed, parenting alone or have a disability and are getting certain payments from the Department of Social Protection, you may take part in a second or third level education course and receive a Back to Education Allowance (BTEA).

It is important to note that you cannot get the BTEA and the maintenance component of a student grant together.

In order to get the BTEA when going to college, you must accept your place on a full-time course, and then notify the Department of Social Protection by filling out the BTEA application form. Further information can be found at [Citizens Information](#).

OTHER FINANCIAL ASSISTANCE

There are two funds available to help students who find themselves in financial difficulty:

- The Student Assistance Fund (SAF) is a Government fund intended to provide financial support to disadvantaged full or part-time students who require additional financial support to enable them to fully benefit from their third-level studies. This funding can be put towards the costs of accommodation, transport, books and class materials, food and utilities, medical expenses and childcare but cannot be used to cover college fees.
- The Student Support Fund (SSF) is a limited emergency fund available to students who experience unexpected financial difficulties during their time at university. Such support is often offered in the form of a short-term loan.

For further information on grants for postgraduate students contact:

admissions.sligo@atu.ie

admissions.donegal@atu.ie

Scholarships

At ATU, we support the pursuit of lifelong learning. Scholarships allow our students and ATU Alumni to achieve excellence in their field while also giving them an opportunity to build valuable relationships and enhance their career prospects.

Alumni Scholarship

ATU Alumni comprises of over 100,000 graduates. As part of the suite of benefits for members of the ATU Alumni Network, the ATU Alumni Office offers a reduction in academic fees for alumni who pursue a Masters programme at ATU.

The reduction in fees is available to those who:

- Have completed a Level 8 undergraduate degree at any ATU campus (including legacy Institutions).
- Register as a student on a Level 9 Masters award (min. 90 credits)
- Register with the ATU Alumni network.

The discount can be applied to both full-time and part-time Masters programmes, and includes all delivery formats, on-campus, online, or blended. The scheme will be open to students who commence their Masters with ATU in 2025/26. Some course exclusions may apply.

To find out more details and register at www.atu.ie/alumni

Non-EU Scholarships

Scholarships are available for Non-EU students giving up to a 15% discount off the quoted fee.

If you are a Non-EU student thinking of applying to study in ATU then you may qualify for a scholarship in recognition of your English language attainment, your country of origin, or both.

For further information contact the ATU Global Office www.atu.ie/international

Sports Scholarship

The ATU Sports Scholarship programme provides both financial and non-financial benefits to talented student athletes. The programme is open to new full-time undergraduate and postgraduate students attending any of the 9 ATU campuses.

Financial benefits are awarded at Gold (€3,000 per annum), Silver (€1,500 per annum) and Bronze (€500 per annum) level. Non-financial benefits include reduced gym fees, free sports gear, national and international competition support.

For full details on benefits, eligibility, sporting level, assessment process, and application forms visit www.atu.ie/sports-scholarship or contact sport@atu.ie

ATU/Gaelic Players Association (GPA) Postgraduate Sports Scholarship

This ATU/GPA (Gaelic Players Association) partnership allows for up to 12 fully funded, postgraduate places to male and female members of the GPA who wish to study at ATU. The scholarships will benefit current and former inter-county players who are accepted onto any full-time or part-time Masters programme within ATU.

Applicants can apply for the scholarship once they have secured their place on their programme of choice. 50% of the course cost will be covered by ATU with the remaining 50% covered by the GPA.

For queries and further details, contact the GPA's Education Manager Brian Howard brian.howard@gaelicplayers.com

Scholarships

Galway Wind Park Scholarship

The Galway Wind Park Scholarship Programme aims to maximise value for local communities by funding third-level education opportunities for people living within 15 kilometres of Galway Wind Park in Connemara.

Successful scholarship recipients will receive 50% of the Student Contribution Fee, to be paid over the duration of their course, to a maximum of three years for undergraduates and one year full-time or two years part-time for postgraduate courses.

To find out more contact windparkscholarship@atu.ie

Dearcán Foundation Scholarship

The Dearcán Foundation was founded in 2021 in memory of a John Sisk & Son employee, Dave Tracey, the long serving manager of the John G. Sisk Training Centre. Dave endeavoured to ensure that young people were supported in pursuing whatever their chosen career was whether in construction or otherwise.

This scholarship offers €10,000 to one student at ATU to support them in their studies. The funds can be used for living expenses, fees, or other costs.

To find out more, contact Melanie Steinhardt msteinhardt@foundation.ie

For further details on all scholarships visit www.atu.ie/study-at-atu/scholarships

Funding

The Department of Further and Higher Education, Research, Innovation and Science (DFHERIS) facilitates skills development by managing a number of national initiatives, such as Springboard+, Skillnet Ireland and the Human Capital Initiative (HCI). These initiatives provide free and subsidised upskilling and reskilling opportunities in higher education in areas of identified skills need.

SPRINGBOARD+ & HCI FUNDING

Each year, the Higher Education Authority (HEA) approves courses for Springboard+ and Human Capital Initiative (HCI) funding. Places are limited and are granted in areas where there are known skills shortages in the domestic economy.

Students interested in studying on a Springboard+ or HCI approved courses must apply to Springboard+ directly and must meet eligibility criteria.

If you are employed and are completing a Level 9 course that is supported by Springboard+, it is 90% funded and you are required to pay the remaining 10% tuition fee. If you are unemployed, Springboard+ will cover 100% of the course fees.

For further information on the approved courses visit atu.ie/springboard

Springboard+ is co-funded by the Government of Ireland and the European Union.

The Digital Academy for the Sustainable Built Environment (DASBE) provides blended education in critical areas needed to upskill the construction and retrofit sectors, focusing on three core themes of Energy Efficiency, Circular Economy and Digital Skills.

DASBE is a partnership between the Technological University of the Shannon (TUS) and Atlantic Technological University (ATU), along with industry partners the Irish Green Building Council and Tipperary Energy Agency and is funded by the government's Human Capital Initiative Pillar 3.

Course Name	Award	Funding available for successful applicants*
Built Environment Regulation	Masters of Science	€3,750
	Postgraduate Diploma	€2,500
	Postgraduate Certificate	€1,250
Built Information Modelling (BIM)	Higher Diploma	€2,500
Built Information Modelling (BIM) and Digital Leadership	Masters of Science	€3,750
	Postgraduate Diploma	€2,500
	Postgraduate Certificate	€1,250
Circular Economy Leadership for the Built Environment	Masters of Science	€3,750
	Postgraduate Diploma	€2,500
	Postgraduate Certificate	€1,250
Civil Engineering	Higher Diploma	€2,500
Energy Conservation and Environmental Services	Certificate	€625
Fire Safety	Certificate	€625

* Fees and fee discounts quoted may be subject to change for academic year 2025/26. Please visit www.dasbe.ie for most up-to-date fees.

FUNDED SHORT ACCREDITED COURSES: MICRO-CREDENTIALS

Our Micro-credentials courses are short, accredited learning experiences that allow you to study flexibly and choose modules to suit your own professional development or skills needs. Micro-credentials are typically short in duration, time commitment and are usually 5, 10 or 15 credits.

ATU is delighted to receive 50-80% funded places on a range of our Micro-credentials courses through the HCI Pillar 3 Micro-Credentials Learner Fee Subsidy initiative in higher education.

For more information and full eligibility criteria, visit www.atu.ie/flexible/micro-credentials

HSE CENTRE FOR NURSING AND MIDWIFERY EDUCATION FUNDING

Atlantic Technological University (ATU) offers a diverse range of Nursing and Healthcare courses our Letterkenny, Mayo and St Angelas campuses, in the areas of Clinical Skills, Education & Research, Health & Well-Being, Leadership & Management, Digital health & IT Skills.

Registered Nurses and Midwives can apply to the HSE's Centre for Nursing and Midwifery Education (CNME) for educational funding to support their continuous professional development. This funding is can be used for short programmes or for formal academic programme fees. For more information and eligibility criteria, please visit www.healthservice.hse.ie/about-us/onmsd

NON-FINANCIAL SUPPORTS

Career Guidance Supports

For ATU Undergraduates, career guidance services are available on each campus, helping students choose the right masters course.

My Career Path is an excellent 1-to-1 mentoring service available from ATU for people in the workplace, returners to education, entrepreneurs seeking to upskill and people looking to accelerate their career and progress within their organisation.

Visit www.mycareerpath.ie for more information.

Student Support Services

Postgraduate students, whether studying full-time, part-time, online, on-campus or blended, have access to a wide range of student support services, including:

- Academic Writing - Whether continuing or returning to third level education, students can avail of free advice and support on all aspects of academic writing to support assignments, projects or report writing.
- Maths Supports - Many capable students experience difficulties meeting the required standards in Mathematics. Maths Support service offers both on-campus and online students the opportunities to get one-to-one tutoring throughout the semester. This confidential service is tailored to the individual's needs.
- Counselling & Student Wellbeing - a confidential student support that is available free of charge to all registered students. At different times we may face various challenges relating to our mental health. In-person, online or phone appointments can be available, depending on the student need.
- Library Services – Postgraduate students have full access to subscriber and curated information resources, services and support. Students are encouraged to avail of the many academic research tools including guidance on how to develop valuable researching skills.
- Disability Support Services - Any student with a disability can avail of the Disability Support Service. This service is committed to empowering students to achieve their academic and vocational goals in an inclusive learning environment. This service is free and confidential to all students who choose to register.

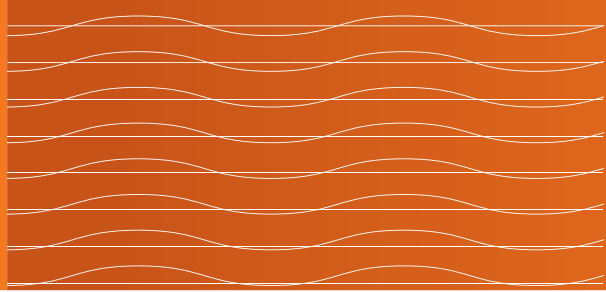

For further details on student support services visit atu.ie

Fees

FEE PAYMENT OPTIONS

Self-Funded

To help make payments more manageable for students who are self-funding, ATU has a variety of payment options that include payment per semester, in-full or by instalment.

Self-funded students can choose from one of the following payment plans.

Payment Plan 1:

September & January Intake: Pay 100% of tuition fees at registration.

Payment Plan 2:

September Intake (only): Pay 50% of tuition fees by October 31st and 50% by January 31st.

Payment Plan 3:

September Intake: Pay 20% of your tuition fees at registration and then pay 10% per month for 8 months.

January Intake Pay 20% of your tuition fees at registration and then pay 20% per month for 4 months.

Students on short courses with fees of €500 and under must pay 100% of their fees at registration or 2 instalments of 50% fees for that course. First payment due by 31st October and second payment due by 31st January.

For stand-alone modules which run over one Semester only, the module fee must be paid in full by the end of the Semester in which the module is undertaken.

For further details on how to request and set-up an instalment plan visit

www.atu.ie/fees-funding

Employer Funded

In collaboration with ATU Business Development team, companies who sponsor multiple employees to study at ATU within an academic year may be eligible for a 10% fee reduction.
